Tech Stack

JavaScript, React, Node, Mongodb, SQLite, Django, Python, Java, Jest, AWS, Express, Git, GitLab, Jira, CSS3, LESS, SASS

RELEVANT EXPERIENCE

REALM, California, Long Beach / Canada, Victoria (remote) - *React Native Developer, 2019 - 2020*

- Developed a new version of a social app for gamers with React Native for Android and iOS platforms.
- Developed home feed component that incorporated all user subscriptions, other users activities and video/image posts. In order to reduce loading times significantly, I utilized FFMPEG to resize or convert videos to GIFs preview that played automatically on a certain screen position on scroll.
- Ensured that Media was successfully processed from the back end system and delivered to front end clients.
- Using React Native Animated API, created animated components: flipping/sliding character cards, auto - hide menus on scroll that met the design and enhanced UI.
- Developed Camera component that included options: flash, front/ back facing camera, take picture/video, 3s and 10s timer to delay taking picture/video, 20s timer for recording video with animated progress bar, picture/video preview with simple editing possibilities.
- Created objects from JSON API back-end data, to be suitable to use in front end components.

IT - ITECH LLC, California, Long Beach - *Project Coordinator, 2016 - 2017*

- Established IT - iTech LLC Web project scope by studying strategic business drivers; discovered and validated business technical requirements.
- Planned project life cycle deliverables, resources availability and application.
- Coordinated with offshore team to design, develop and release company's website, mailing and customer management system (CMS)
- Met cost standards by monitoring expenses and implementing cost saving actions.
- Conducted website management and maintenance (in PHP), refactored home page code for faster rendering.
